Subject: LBP MOC feedback

[CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.]

To whom it may concern,

Thank you for the opportunity to comment on the LBP MOC.

Find my initial comments on reviewing.

Principle 10: "consider review by musculoskeletal specialist" – eg physiotherapist or consultant – orthopaedic/neurosurgical?

Unclear what is meant by this – medical or AH?

P8 under Pathway A: again what is a musculoskeletal specialist? And Do you need to document "Specialist to arrange appropriate investigations" – maybe change to "Specialist to arrange investigations *as/if required*" – as not all will need investigations at this point?

P9 under Pathway B: would also include cauda equina symptoms under * (add bowel and bladder dysfunction, saddle paraesthesia in addition to the nerve root symptoms)

Just seen the Glossary defines "Musculoskeletal Specialist" – wonder if need a notation linking first time word is used to the Glossary?

Thank you!

Kind regards

Elise
